

# HospiceCare Plus

HospiceCare of Boulder and Broomfield Counties offers one-on-one, professional nursing care in patients' homes in increments of 8-12 hours during crisis situations. This service is provided when the family is unable to manage acute medical symptoms and the patient wants to remain at home. Daily care at this level continues until the medical situation is brought into control. Once control is achieved, intermittent visits by HospiceCare's interdisciplinary team resume.

HospiceCare Plus can be provided wherever the patient calls home: private residences, assisted living communities and skilled nursing facilities. Patients who, in the past, had to be moved to other care environments have been able to stay in familiar surroundings for as long as they need hospice care.

HospiceCare Plus is fully covered by the Medicare and Medicaid Hospice benefits and other private insurance programs.
