

NEURODEGENERATIVE DISEASE PROGRAM

HospiceCare offers expertise in the management of progressive neurodegenerative symptoms for your patients with terminal diseases including ALS, Parkinsons, dementia, Multiple Sclerosis, Lewy-body disease, multiple system atrophy, and stroke.

When your patients with any of these neurodegenerative diseases are nearing their final months, HospiceCare can provide compassionate care and expert symptom management in the familiar comfort of home, surrounded by loved ones. Our family centered approach means we'll also guide and assist caregivers during this profound time, along with offering them grief support after the loss.

With HospiceCare, your patients receive:

- Expert pain and symptom management in the comfort of home
- Unparalleled clinical, emotional, and spiritual support so that every day can be lived to the fullest
- 24/7 availability of a HospiceCare nurse who has ready access to all records
- Continuous in-home care during crisis situations
- Around-the-clock care at the HospiceCare Center in-patient facility when pain and symptoms cannot be managed at home

What makes HospiceCare the right choice?

- Our Medical Director is board certified in Neurology and Hospice and Palliative Medicine — she and everyone who cares for your patient is expert in managing progressive neurodegenerative symptoms.
- We offer superior expertise in medication management, care for bed-bound patients and those on bi-pap or in need of wound care.
- Specialized equipment and protocols are designed for end-stage neurodegenerative disease patients.

If you're not sure whether it's time for HospiceCare, simply call for a Palliative Consult. We'll meet with your patient and family to determine eligibility and help them consider this choice. Then, we'll handle the paperwork and provide you with a consult report.

Referrals are easy. We admit patients around the clock, just by calling 303.449.7740. We're always happy to collaborate with you, to whatever degree you desire, around your patient's care. You can trust HospiceCare to nurture your patients because, like you, we keep their welfare top of mind.
